A spectacular RAID on Klosters!

What fun it was last Saturday to see such a stunning array of cars leaving Klosters and travelling to Vienna on the occasion of the 30th Anniversary of RAID.

cs | The skies might have looked a little dark and threatening in the distance but the rain held off for the start of this exciting rally and there were so many interesting classic cars to admire in the car park before the midday start. Details have not been published as yet about what happened en route over the three days of the rally but we do know that the overall victory of the anniversary RAID from Klosters to Vienna was Andrea and Claude Schwegler in their 1930 Ford A Speedster Racer (Start No 3 in the photo on this page). Congratulations to all the participants and organisers of this fabulous event and it was a real treat to see so many wonderful and beautiful classic cars right here in Klosters!
